Day 1

Dinner (dependent upon arrival time)

London... As one of the world's top destinations, London is a bevy of English bobbies, an ocean of black umbrellas, and an unconquered continuance of more than 2,000 years of history. Now an uber-cool city, London remains history-steeped. There's sufficient antiquity and historic splendor around every corner... London's buildings are eye-catching milestones in the city's unique and compelling biography. There's more than enough funky innovation to put a crackle in the air, but it never drowns out London's well-preserved, centuries-old narrative. Architectural grandeur rises up all around you, ancient remains dot the City and charming pubs punctuate the Thames riverside. It's all here!

A tireless innovator of art and culture, London is a city of ideas, imagination, art and history all rolled into one. How can a 2,000-year-old settlement with such a deeply entrenched history stand at the leading edge of design, architecture, fashion, cuisine, fine art, and pop culture? - By embracing international styles, influences and people as much as its own. The city's millennial resurgence resulted from a blend of clear-eyed preservation, savvy reinvention, and bold innovation. Only here could a brash new landmark so swiftly find its place in the old cityscape; only here could the cutting-edge 'gastropub' so readily slip into local parlance and routine. Perhaps that's because behind all this novelty, the London that always was endures, unperturbed by these curious new arrivals, or just slightly bemused.

The crown jewels, Buckingham Palace, Camden Market... In London, history collides with art, fashion, food, and good British ale. Londoners are fiercely independent thinkers, so the creative milieu is naturally streaked with attitude, from theatrical innovation to contemporary art, pioneering music, writing and design. A perfect day is different for everyone: culture hounds hit the Tate Modern and the Royal Opera House. Clotheshorses will drool over Oxford Street shops. For foodies, cream tea at Harrod's or crispy fish from a proper chippy offers classic London flavor. Music and book buffs will freak over Abbey Road and the Sherlock Holmes Museum.

And while English may be the national tongue, over 300 languages shape London's linguistic soundscape. These languages also represent cultures that season the culinary aromas on London's streets, the clothing you glimpse and the music you hear. It can seem like the whole world has come to town. Museums have collections as diverse as they are magnificent, while flavors at markets range across the gourmet spectrum. London's diverse cultural dynamism makes it quite possibly the world's most international city, while being somehow intrinsically British.

Did you know?

- ✓ Most people have an impression that Big Ben is the name of the world-famous clock, or perhaps the tower that houses it. The name actually refers to the 13-ton bell, while the tower is known as St. Stephen's Tower.
- ✓ In 1870, thanks to the potato famines in Ireland, there were more Irish living in London than there were in Dublin. At that time, there were also more Catholics living in London than there were in Rome.
- ✓ The Thames is the oldest place name in Britain, and the river is a combination of four other rivers.
- ✓ The city that is presently known as London has gone through a variety of names during its history. At the time of the Roman Invasion, it was called Londinium. In Saxon times, it became known as Lundenwic. And during the kingdom of Alfred the Great, the city was known as Lundenburg.
- ✓ Her Majesty the Queen is not allowed to go into the House of Commons because she is not a commoner.
- ✓ Rumor has it that Windsor Castle is haunted by a range of ghosts, including King Henry VIII, Queen Elizabeth I, Mad King George, and Charles I.
- ✓ About sixteen percent of the UK's restaurants are in London, and there are more Michelin-rated restaurants in London than in any city except for Paris.
- ✓ Each week, the 409 escalators in the London subway cover an astonishing distance: the equivalent of several trips around the globe!
- ✓ London is highly diverse ethnically and culturally; around one in three Londoners is a foreign national. Over 300 languages are spoken in London, more than in any other city in the world – this makes London the language capital!
- ✓ The Queen's official residence, Buckingham Palace, was built in 1702... on the site of a notorious brothel!
- ✓ Harrods, London's most famous shop, once used a cobra to guard a valuable pair of sandals. They were priced at £62,000 and were covered in diamonds and sapphires.

- ✓ In England, people drive on the left side of the road...except for one road: Savoy Court in London. Here, cars are legally required to drive on the right; originally created in 1902 so that fancy folk could get straight out of their carriages into the Savoy Theatre. The law was never changed.
- ✓ Cab drivers in London are special. To become a taxi driver, they must pass 'The Knowledge Test.' Taking two to four years to study, they must memorize 25,000 streets and 20,000 landmarks.
- ✓ The London Underground (known as the Tube) is the oldest and longest metro in the world, with over 270 stations and 400 km of tracks.

Groups participating in Visions 'Lights of London' tour will generally arrive in the late morning if arriving internationally or early afternoon if arriving from within the UK or Europe. Upon arrival via flight, a motorcoach will be waiting to transport you swiftly to your hotel. After check-in, we'll have our Visions Welcome & Safety Meeting, and then have a very relaxed day to catch up on sleep, perhaps do some sightseeing on our own, have a great dinner and then prepare for a week of fabulous fun! Get ready to experience London!

Please know that we are able to offer hotel classes to fit every budget. Accommodation options range from hostel-type accommodation through 4-star properties. Please let us know your preference! Below is an example of a moderate 3-star property.

Disney's The Lion King Master Class - Disney's internationally acclaimed production of The Lion King is an experience that will engage and inspire your pupils' imaginations like never before.

Education Connections: Drama & Theatre Studies, English, Dance, Performing Arts, Music, Design and Technology, Art, Citizenship
Appropriate Ages: 7 – 18 year plus

As part of the show's education program, we are delighted to bring you three fantastic workshops, targeting different age groups. For younger students, our specially designed workshop uses simple theatre techniques to explore the themes and characters in the show. Themes of family, friendship, conflict and responsibility are all focused on, making it the perfect workshop for 7-11 year olds. Our second workshop is suited to 11-16 year olds as physical theatre techniques based on artaud and laban are used to explore body isolation and energy. Your class will also be introduced to the world of balinese dance, which is a recognizable style throughout the show. For the more experienced drama and dance students, 16-18 year olds plus, we run a physical theatre Master Class. This workshop teaches performers some of the techniques used in the show to develop an acute awareness of their physicality in the creation of a physical character. In conjunction with this, you can take your pupils on a 'virtual backstage tour' with 'behind the scenes' – an innovative new educational resource from The Lion King Education program. Created exclusively for educational use, this truly unique teaching resource comprises 10 short episodes - each focusing on a different aspect of The Lion King. Episodes range from the award-winning masks and puppets, costumes and choreography, to adapting the film for the stage, themes behind the story and the African music in the show.

Wicked Master Class - Wicked, the spellbinding and spectacular hit musical, tells the untold story of the legendary witches from Frank L, Baum's The Wonderful Wizard of Oz.

Education Connections: Drama & Theatre Studies, English, Design and Technology, Art & Design, Citizenship
Appropriate Ages: 7-18 year plus

Wicked continues to entertain and inspire students of all ages. Based on the novel by Gregory Maguire that re-imagined the stories and characters in 'The Wonderful Wizard of Oz', this unforgettable musical tells the untold story of the witches of Oz, and how one came to be called 'good' and the other 'wicked'. Specially created for wicked, there are four workshops which each explore the show's central subjects, themes and characters through experiential theatre techniques.

Workshop 1: Ages 7-10 - An educational workshop exploring the subjects of identity, bullying, friendship and having belief in oneself. Using games, image theatre, storytelling and group work, your students will explore the show's central themes while learning performance skills which build confidence and self-esteem, team work and individual thought and strong communication skills.

Workshop 2: Ages 11-15 - Through interactive exercises, your students will explore the production's central themes of identity, individuality, bullying and ambition. This motivational workshop will encourage students to think independently, exploring their own hopes and dreams, and through team-work, create performance pieces. Through character development, acting and singing techniques, these lessons will be put into practice in a performance of a song from the show at the end of the workshop.

Workshop 3: Age 16+ - Ideal for advanced students of performing arts, this challenging workshop employs professional performance techniques involved with musical theatre including character development exercises, singing, physicality and gesture, scene studies and devising tasks to explore the show's central themes and characters, reflecting your students' own fears, hopes and dreams.

Musical Theatre Master Class: Experienced students with confidence only! (Ages 16-18 year plus) - Tailored to your group's age and level of experience, this workshop gets you up and singing from the start. This is not a workshop for the inexperienced as it requires great commitment to performance with confidence – you'll learn vocal and singing skills, character movement and physicality, and create your own choreography in addition to that taught by our workshop leaders. Reference will be made to the themes within the show through text and performance, but unlike the workshops above the central focus in this workshop is on creating performance.

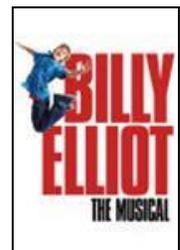

The 39 Steps Master Class - John Buchan's classic spy thriller the 39 Steps, and Alfred Hitchcock's memorable movie version of the book have been recreated for the stage in this hilarious Olivier and Tony award winning comedy.

This blissfully funny show follows the incredible adventures of our handsome hero Richard Hannay, complete with stiff-upperlip, British gung-ho and pencil moustache as he encounters dastardly murders, double-crossing secret agents, and, of course, devastatingly beautiful women. Featuring just four fearless actors playing 139 roles in 100 minutes of fast-paced fun and thrilling action, this is the perfect show for your students. The workshop was specifically developed for the 39 Steps, and you will work with professional actors to learn acting and performance techniques used in actor training and in the rehearsal and creation of the 39 Steps. Specifically, the workshop will help students to devise theatre ideas through storytelling, explore character development techniques for multi-role playing, work on vocal and speech techniques to improve communication, develop physicality and movement skills and to take part in storytelling.

Set in 1984/'85, during one of the most damaging strikes in Britain's history, Billy Elliot The Musical provides a wealth of historical context and stimulus for cross-curricular activities. Our workshop encourages students to understand the history and political situation at that time. Through creating your own version of a scene from the show, key themes of citizenship and individuality will also be explored, with a particular focus on being different because of talent and/or gender.
