Day 2 Lake Gairdner & Gawler Ranges Wildlife

The morning drive this morning visits an ochre pit, once used by the indigenous people of the area, before continuing on to Lake Gairdner. This stunning lake is a glistening white salt pan, set against the stark landscape of the Australian outback. Walk out onto the lake surface and look north to see the endless white stretching into the distance, contrasting vividly against the red earth. During the spring months the red dunes alongside the lake are filled with wild flowers and birdlife and the photo opportunities are endless.

During the afternoon you'll travel through an ever-changing landscape including volcanic rock formations and see an abundance of wildlife. Emus, red, western grey and euro kangaroos are usually seen as your guide takes you through ancient outback on the return to Kangaluna Camp.
