Resin Bound Tree Pit System From Addagrip Terraco Ltd

**Decorative
Porous Surfacing
Designed
For Tree Pits**

Experts in Resin Since 1980

www.addagrip.co.uk

A member of the **TERRACO** Group

addastone TP[®]

Addastone TP is designed to provide a practical paving solution for tree pits.

Using a 6-10mm aggregate, the open texture achieved provides a highly porous resin bound surface, allowing the tree roots access to both air and water penetration.

For commercial projects and urban schemes. Installed at depths from 25mm to 75mm, depending on requirements, onto a well compacted base of loose aggregate.

25mm depth - No foot traffic - decorative
50mm depth - Light foot traffic
75mm depth - Heavy foot traffic

See our website www.addagrip.co.uk for full details.
