# Handycoat<sup>®</sup>

## Interior

### Interior acrylic based filler

- Ready for instant use
- Joint, patch, fix and skim
- No primer needed
- Ultra smooth finish
- Less mess

A multi-purpose product used for filling, jointing and skimming.

It can be applied up to 4 mm in thickness on skimming applications, and as it is quick drying.

Filling

Skimming

Jointing

Handycoat Interior is a multi purpose, ready-mixed, interior skimming, jointing and patching compound which bonds extremely well to cementitious materials, gypsum based substrates and boards, Sprayplaster, wood and all common types of building surfaces.

#### Benefits

- Natural finish
- Ready mixed
- Inherent flexibility
- No need for primer or sealer
- No shrinkage
- Vapour permeable
- Higher adhesion
- Quick drying
- Water based
- Environmentally friendly

#### Areas of use

- Cementitious substrates
- Gypsum boards
- Wood
- For skimming walls and ceilings
- Conventional taping and jointing systems
- Repairing damages, cracks or nail holes
- Making good around door and window architraves
- Filling along the top of skirting boards

## EZ-Skim<sup>™</sup>

### Interior ready-mixed filler and skimming compound

- Ready mixed for instant use
- Sandable finish
- Easy to apply
- Low dust

A ready-to-use filler and board skimming compound for most building surfaces, including sand / cement render and gypsum board.

It achieves a high quality, smooth surface for painting. It is manufactured for the painter and home owner to repair and touch up surfaces, both old and new, prior to commencing with painting.

#### Benefits

Handycoat EZ-Skim is made from a selected blend of acrylic polymers and precisely graded fillers.

- Easy to use
- Vapour permeable allowing the substrate to breathe
- High adhesion power
- Does not flake off
- High coverage
- Quick drying.

#### Areas of use

It is suitable for skimming gypsum board, sand / cement render, concrete panels and lightweight concrete surfaces.

When dry, Handycoat EZ-Skim bonds extremely well to cementitious materials, gypsum building boards, Sprayplasters, wood, and all common building surfaces.

## EZ-Roll<sup>™</sup>

### Ready-to-use roller applied interior skimcoat

- Level any wall or ceiling
- Smooth with spatula or scraper
- Ready to paint
- No primer needed
- Easy to use

Handycoat EZ-Roll is a ready-to-use roller applied skimcoat for most building surfaces, including sand / cement render and gypsum board. It produces a high quality, even surface for painting. Handycoat EZ-Roll is specially manufactured for the painter and home owner to repair and level surfaces, both old and new, prior to painting.

Handycoat EZ-Roll is easy to apply using a fine sponge roller after which it is leveled smooth using a spatula. When dry the surface can be wet or dry sanded prior to painting.

#### Benefits

Handycoat EZ-Roll is made from a selected blend of acrylic polymers and precisely graded fillers. Properties include; easy roller application, high coverage, excellent adhesion to most building surfaces, quick drying. Handycoat EZ-Roll is vapour permeable allowing the surface to breathe, which reduces surface condensation.

#### Areas of use

When dry, Handycoat EZ-Roll forms a smooth, sound layer ideal for painting. It is suitable for use by the DIY enthusiast and can turn skimcoating into a job for everyone and anyone. It is suitable for use on new masonry substrates as well as on existing painted surfaces.

Apply using sponge roller

Handyprime is a roller applied filling / priming compound suitable for homogenising interior surfaces prior to painting. It ensures an even sheen and surface texture.

## Benefits

- Ideal for patching / jointing / levelling gypsum boards and concrete surface before painting
- Can also be left exposed as a low cost ceiling finish

## Areas of use

- Equalises absorption and texture variations
- Quick and easy to apply by roller, spray or brush
- Can be coloured with pigments as per requirement

# Sprayplaster™

## Finishcoat (BC)

Manual or spray applied ready mixed plaster

Terraco Sprayplaster is one of the leading spray applied plasters in the world! A unique acrylic based filler for walls and ceilings.

## Benefits

- Can be sprayed or hand applied
- Cost & time saving
- Ready mixed / ready to use
- Weight reduction
- No cracks
- Inherent flexibility
- No curing
- Rectifies irregularities
- Acts as finish coat filler over Sprayplaster Basecoat (BC)
- Vapour permeable
- Excellent adhesion
- Quick drying time
- Minimal shrinkage
- Water based
- Environmentally friendly

## Areas of use

- Suitable for all new and old surfaces of pre-cast concrete, aerated concrete, sand / cement, fair faced, and brickwork to evel and rectify substrate imperfections up to 10mm.
- Finish surface using Terraco Sprayplaster Finishcoat (FC) which removes the need for any further wall fillers (putties, stucco etc)

**Eliminates the requirement for primer in most paint systems**
