

EAGLE SUPERSPORT ROADSTER NO.25

£495,000

The ultimate Eagle E-Type Roadster, commissioned to our very highest specification.

As one-half of a matching pair commissioned for an important international car collection, this Eagle SuperSport Roadster has experienced only the very highest standards of care since we completed it a number of years ago.

Our brief for Eagle 25 was to fulfil every one of our upgrade packages, checking every box, and ultimately arriving at our SuperSport specification. The extensive list of upgrades included our fuel injected 4.7-litre engine conversion, 5-speed gearbox, aluminium bonnet and sports suspension geometry.

An Eagle E-Type can only be defined as such once it has been fully restored to better than brand new and fitted with our bespoke upgrades. One important decision in this process is the choice of colour. For Eagle No.25 the classic hue of Opalescent Silver Blue was chosen to match the Biscuit leather interior and sports seats. A Navy mohair hood and accompanying hood bag complete the picture.

With just 1,250 miles covered since completion, this is an opportunity to own an Eagle with the ultimate specification - without the waiting list.

Eagle SuperSport Specification

Eagle 5-Speed Aluminium Gearbox

4.7 Litre Fuel Injected Engine

Air Conditioning

Aluminium Bonnet

1,250 Miles

Every Jaguar E-Type supplied by Eagle can be easily converted to left or right hand drive as desired.

The specification may also be further tailored to precisely match your requirements and planned use.
