ADDAGRIP RISER ADHESIVE

MS POLYMER ADHESIVE AND SEALANT

A-A5137

OVERVIEW

ADDAGRIP RISER ADHESIVE is a high strength adhesive used to bond the underside of the rubber riser to the brickwork or mortar and to bond the ironwork to the riser.

BENEFITS OF USING A RUBBER ADJUSTMENT RISER & ADDAGRIP RISER ADHESIVE

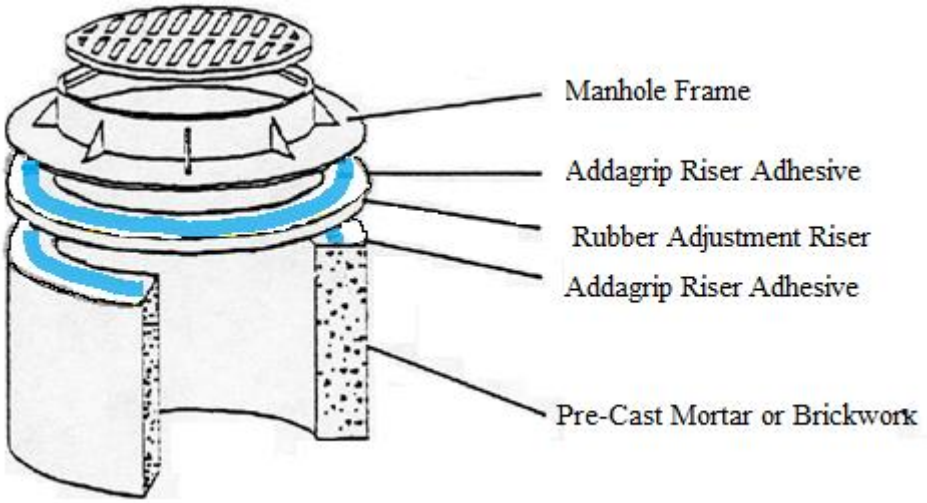

Adhering a Rubber Adjustment Riser using **ADDAGRIP RISER ADHESIVE** has the following benefits:

- Application is quicker compared to traditional methods
- Reduces vehicular traffic impact between the manhole frame and the surface of the road – reduces damage at interface
- Less groundwater infiltration due to less damage which in turn leads to less erosion
- All the above results in reduced costs and extends the life of the surface surrounding the manhole.

APPLICATION

ADDAGRIP RISER ADHESIVE is cartridge applied to the joint and then tooled shortly after application.

1. The surface to be treated should be free of laitance, oil, grease and loose friable particles.
2. No mixing is required.
3. Apply a continuous strip (8mm wide 3mm thick) of **ADDAGRIP RISER ADHESIVE** onto the pre-cast mortar or brickwork, 25mm from the outer edge of the rubber riser to bond.
4. Apply the second continuous strip onto the top surface of the rubber riser, 10-25mm from the outer edge of the ironwork.

ADDAGRIP RISER ADHESIVE

MS POLYMER ADHESIVE AND SEALANT

A-A5137

TECHNICAL DATA

Product	MS polymer adhesive and sealant
Colour	White
Application Temperature	-30°C to +100°C
Skinning time at 23°C 50% RH	20 minutes
Cure at 20°C	24 hours
Material Consumption/Coverage	Approx. 12 linear metres per cartridge (8mm x 3mm bead)
Packaging	Supplied in 310ml cartridge
Storage	6 months in original unopened containers.

HEALTH & SAFETY

Before using this product, please ensure you have been supplied and have read carefully the following:-

1. The hazard label (complying with CLP – European Regulation (EC) No. 1272/2008)
2. Safety Data Sheet

Please consider the regional or national regulations regarding disposal.
