# SKIATHOS

SPORADES

Skiathos was the first island we visited over 30 years ago and was then virtually unknown but it remains one of our favourites and clearly many of our guests agree as they return year after year. Skiathos is the perfect island for beach lovers - the south coast offers a never ending succession of beautiful sandy beaches culminating in renowned Koukounaries.

The interior of the island is incredibly lush and green, covered with olive trees and pine forests and there are some delightfully scenic walks taking you to hidden churches, panoramic viewpoints and secluded beaches. The monasteries of Evangelistria, Kounistria and the ruins of the former capital of Kastro can all be visited by car.

When the sun goes down Skiathos really comes into its own, the town itself is a picturesque jumble of red roofed houses overlooking two sheltered harbours - the old port has a fleet of small excursion boats, water taxis and colourful fishing boats, while the new port is a bustle of yachts and ferries. The main street is named after the famous writer Alexander Papadiamantis and is cobbled and traffic-free with a variety of shops and tavernas. Quite simply Skiathos has something for everyone.

## ARIES VILLAS

Kalivia, Skiathos Town  
Sleeps 2/9

Aries Villas are just five minutes drive away from the port and a selection of stunning sandy beaches. The three villas named Sagittarius, Capricorn and Leo have been decorated by leading interior designers. They ooze comfort and luxury and each villa has been tastefully decorated with high quality furniture, hand-made works of art and sumptuous king-sized beds with extensive outdoor sofas and rattan loungers overlooking the deep blue sea.

The villas are separated from each other in such a way that keeps privacy and exclusivity intact. The owner can arrange a chef or a sail boat excursion around the island or to the neighbouring islands of Skopelos and Alonissos - so sit back and enjoy the exclusive VIP experience!

Despite its beachside location the hotel is only 1½ kilometres from town, a pleasant stroll partly along the beach.

# SKOPELOS

## SPORADES

Skopelos, the second largest island in the Sporades chain, is staggeringly beautiful with lush pine covered mountains sweeping down to sheltered beaches and coves. On the lower slopes dense pine tree forests give way to olive groves and the famous plum orchards, which for centuries were the source of the islands prosperity.

Skopelos Town has one of the most dramatic approaches in the Aegean. Seven white churches cascade down the hillside to the harbour wall and the town itself, a maze of picturesque streets, has retained a very traditional character, with grey Pelion slate roofs, overhanging wooden balconies filled with flowers and a tiny church around every corner. The town itself is a maze of picturesque streets and alleys filled with artisan shops. In the evenings the tree-lined waterfront comes to life as people gather for a relaxing drink in the many bustling tavernas and cafés.

The coastline, with its rugged cliffs and fjord-like bays bordered by lush pine forest, is equally spectacular. Shorelines of dazzling white shingle or pebble are lapped by crystal clear water, shading from the most delicate hint of turquoise to a profound inky blue. The swimming and snorkelling are truly outstanding.

We recommend hiring a small boat to explore the stunning coastline.

## PSARRIANOS BEACH APARTMENTS

Alonissos is a tiny gem in the Aegean. It is a green, fertile island with only one town and three villages. You will arrive at the port of Patitiri, the capital of the island, situated in an idyllic bay sheltered by cliffs and rock formations. The peaceful atmosphere is apparent as soon as you step ashore from the ferry. Tavernas line the waterfront and serve some of the best food in the Sporades. High above Patitiri, the hilltop Old Town is a maze of narrow alleys, stepped streets and bougainvillea bedecked houses, with here and there a tiny taverna.

The island has countless delightful coves and bays, most of them shingle or pebble. The seas around Alonissos are crystal clear, wonderful for swimming and snorkelling and there are regular boat trips to explore “the Deserted Islands” of the protected Marine Park.

Halfway down the east coast, in a stunning location opposite Peristera island, is Steni Vala, a quaint and colourful fishing village on a sheltered inlet, famed for its fish tavernas; beyond lies the glorious beach of Aghios Dimitrios, a long pebble spit extending out towards Peristera.

# CRETE

Tucked away in the deep south of the Aegean, Crete is the largest of the Greek islands, steeped in Homeric history and legend. It is a richly varied island with an ever-changing landscape of rugged mountains, deep ravines, fertile plains and a long golden coastline of sandy beaches.

The history of the island is reflected in its buildings: the superb Minoan palace of Knossos, the archaeological sites of Phaestos, Gortys and Agia Triada, the grand Venetian harbours of Chania, Rethymnon and Heraklion. Virtually a country in its own right, many of its residents view themselves as Cretan first and Greek second giving the island a rich and distinct character.

For the beach lover there is a huge choice of beautiful sandy beaches, some offering a wide range of water sports whilst others are so far off the beaten track few visitors discover them. For sightseers there are spectacular drives, both across the rugged interior, where every twist in the road reveals a new vista, or along the breathtaking and constantly changing southern coastline.

The hospitality of the Cretans is renowned and the cuisine is a delight for all senses. Taste real flavoursome food, from wild stamnagathi picked from the lush green mountains to staka roux, visit local vineyards and sample the incredible wine. Walk through ancient orange groves, smelling the sweet aroma with wild oregano and thyme that line the path, then dance the local steps to the intoxicating rhythm of the bouzouki.

# CORFU & PAXOS

IONIAN

The emerald island of Corfu nestles off the west coast of the Greek mainland. The island is 36 miles long and at its widest part, in the north, is 15 miles wide. Corfu remains one of the greenest of the Mediterranean islands with over 3 million evergreen olive trees. The diverse coastline offers beaches that range from glorious golden sands to enchanting white-pebbled coves. Inland, the scenery is spectacular and there are an abundance of charming traditional villages where you still encounter the gloriously lazy pace of life that Greece is so famous for.

Nissaki, in the north east, has three beaches with pristine seas that are perfect for snorkelling. All the beaches offer water sports to enjoy and the waterside tavernas are open all day. The fine sandy beach at Aghios Georgios on the southwest coast stretches as far as the eye can see. To the north of the village are the sand dunes and the salt-water lagoon of Lake Korission, which is a must for wildlife lovers. Aghios Georgios is a relaxed resort suitable for both couples and families.

Paxos is the smallest of the Ionian islands, just 7 miles long and 3 miles wide and lies some 10 miles to the south of Corfu and 9 miles from the mainland. This olive covered island is ideal for walking - goat paths and donkey tracks link to small hamlets. In spring and autumn the area is carpeted with wild flowers. There are numerous secluded coves and bays (some only accessible by boat which can be hired by the day) where snorkelling is especially good owing to the clarity of the water. # SANTORINI

## CYCLADES

Santorini is quite simply unique. Towering black cliffs rise sheer from a cobalt blue sea, topped with an icing of tiny white buildings and blue domed churches with elegant campaniles. The island is the result of a massive eruption, one of the greatest the world has ever seen. Originally circular in shape but in 1450 BC a volcano exploded leaving in its place a vast crater or caldera thus creating the crescent shaped island we know today. Meanwhile, below the profoundly deep water which rushed in to fill the void, the volcano continued to smoulder, eventually causing Palea Kameni and, in more recent history, Nea Kameni in 1707 to rise from the waves. A boat trip around the caldera is an unforgettable experience.

Many of the tiny whitewashed houses clinging precipitously to the crater's rim were hacked straight from the volcanic rock. Today these "cave dwellings" have been converted into some of the finest and most luxurious accommodation you will find anywhere.

Most residences are concentrated in the neighbouring villages of Fira, Firostefani and Imerovigli and in Oia, at the northernmost tip of the island. All share the same awe inspiring view. Dramatic by day, but at sunset as the sun slowly sinks beneath the horizon the view is nothing short of spectacular. Due to the terrain properties in these areas are not suitable for children, yet Kamari on the east coast offers a great beach holiday and is ideal for families.

Historians will find the sites of Akrotiri and Ancient Fira fascinating, others will enjoy visiting the old port at the foot of the cliffs, either by cable car, donkey or on foot, whilst those with more cosmopolitan tastes will enjoy browsing in the many boutiques and jewellery shops. With its romantic atmosphere, fantastic sunsets and selection of luxury hotels, this island is the perfect venue for a honeymoon.

A surprisingly green island for the Cyclades, it is popular with locals and tourists alike and yet is much less crowded than some of the other Cycladic islands. There are three main villages on the island: Karavostasis, a small seaside village and the main port; Chora, the main town and a traditional medieval settlement and Ano Meria, a rural village spread across cultivated fields.

The island has a number of quiet beaches although many require some hiking to get to or the hiring of a boat. Alternatively, water taxis run to some beaches.

It is separated into two islets – Pano (Upper) Koufonisia is the larger which has a small selection of traditional hotels and self catering accommodation and Kato (Lower) Koufonisia which is virtually uninhabited and just 4 miles away (approximately 10 minutes by motor boat).

There are some spectacular beaches in the Small Cyclades and Koufonisia is no exception. Parianos in the northwest is a small, picturesque fishing bay with a wide sandy beach and it is sheltered from the wind.

The clear shallow waters make it ideal for families too. In the east are some more beautiful beaches and remote hidden coves where sometimes visitors are the only ones on the beach. The best access is by ferry from Naxos or Santorini where the closest airports are located.

# IKARIA

NORTHERN AEGEAN

Ikaria is the island of wild beauty and named after Icarus, who flew too close to the sun and plunged into the sea. The highest peaks on the island soar to over 1000 metres high with winding roads.

can be found close to the sandy cove of Nas village, three kilometres west of Armenistis. Visitors should be aware that there are some very strong off-shore currents around Ikaria and it may not always be safe to swim.

Ikaria remains today a beautiful and unusual island combining mountains, forests, excellent wineries and stunning beaches topped with innumerable legends. It is a traditional Aegean island with an overwhelming feeling of “getting away from it all.”
