

EAGLE GT COUPE NO.31

£465,000

Eagle No.31 - a beautiful Opalescent Gunmetal Series 1 4.2 upgraded to our Eagle GT specification

Eagle No.31 is a 1966 Series 1 4.2 Coupe developed as a ground up 'zero miles' restoration and presented in Opalescent Gunmetal with black leather seats.

With the additions of our recirculating air conditioning, speed-sensitive power steering and reclining seats this E-Types cabin makes for a truly special driving experience. It also features our specially developed 'hidden automatic' gearbox that combines a custom adaption of a manual gear level with a subtle LED gear position readout between the speedometer and rev counter.

This feature was specially developed for our client and of course can be reverted to the standard manual gearbox if required. Although currently left-hand drive Eagle No.31 can, like all of our E-Types, be converted if desired.

Subject of some considerable praise in a recent Jaguar World article by Jim Patten, Eagle 31 is now ready for a new owner.

With just 2,944 miles driven since delivery, this is an excellent opportunity to acquire a unique specification Eagle E-Type without the waiting list.

Unique Eagle Specification

Automatic Or Manual Gearbox Option

Electric Power Steering

Ultimate Dampers

Recirculating Air Conditioning

Wider Offset Wire Wheels

Halogen Headlamps

Enhanced Electrical Systems

Enhanced Cooling Systems

Every Jaguar E-Type supplied by Eagle can be easily converted to left or right hand drive as desired.

The specification may also be further tailored to precisely match your requirements and planned use.
