

# NEWTON QUALITY AND ENVIRONMENTAL POLICY

Rev 2.0 - 7th June 2017

## QUALITY & ENVIRONMENTAL POLICY

Our aim is to provide the highest quality structural waterproofing solutions delivered to site on time and in full to our customers.

At John Newton & Co Ltd we take our responsibility to protect and preserve the environment very seriously and aim to minimise our resource consumption through the use of energy efficient solutions as well as prevent pollution.

### Packaging

We aim to keep our packaging to a minimum without risking damage to our products by applying the principles of the waste hierarchy and to use all our resources wisely, disposing of waste responsibly.

The achievement of this aim is supported by our effective management, competent staff and good relationships with our suppliers.

### Legislation

We are committed to being compliant with all environmental legal requirements and to satisfying any other applicable requirements to which we must subscribe.

Planning and control of our processes is documented in our quality and environmental management system in line with ISO 9001:2015 (Quality) and ISO 14001:2015 (Environmental) Standards. Our Management system is subject to continual improvement based on reporting and analysis of the effectiveness of the system and on the setting and reviewing of measurable quality and environmental objectives.

Everybody in our company understands and supports this policy and actively contributes to continual improvement of our service to the customers and improving environmental performance.
