

1963 JAGUAR E-TYPE SERIES 1 3.8 COUPE BESPOKE BUILD

£TBA

A 16,000 mile, restored E-Type Series 1 3.8 Coupe to be completed by us to your exact specification.

Given how enjoyable they were to use, Jaguar E-Types are seldom found today with genuine low miles. What we are offering here is even more exclusive.

Not only is this Coupe an authentic 16,000 mile example, but it is also a marvellous opportunity for you to select the final specification from our list of options and upgrades.

While the matching numbers engine, gearbox and completely rust free body have already been fully restored, the level of personalisation we can offer is limited only by your imagination. What's more, with much of the more time consuming phases already expertly completed, the lead time for completion has been significantly reduced.

As it sits now, this E-Type has been repainted in the original shade of Opalescent Gunmetal with the original left-hand drive set-up still in place. However, both of these aspects can be changed to your preference if desired by our team of dedicated E-Type experts.

Whether your desire is to show a factory-specification coupe at Concours d'Elegances or to design a bespoke and fully upgraded package for fast touring and rallies, we would be delighted to build you the E-Type you've always wanted.

Unique Opportunity

Perfect Rust Free Original Body

16,000 Miles

Rebuilt Matching Numbers Engine & Gearbox

Every Jaguar E-Type supplied by Eagle can be easily converted to left or right hand drive as desired.

The specification may also be further tailored to precisely match your requirements and planned use.
