The House of Scandinavian Finishing Materials

Handycoat[®]

Interior

Interior acrylic based filler

A multi-purpose product used for filling, jointing and skimming.

It can be applied up to 4mm in thickness on skimming applications as it is quick drying.

Filling

Skimming

Jointing

Handycoat Interior is a multi-purpose, ready-mixed, interior skimming, jointing and patching compound which bonds extremely well to cementitious materials, gypsum based substrates and boards, sprayplaster, wood and all common types of building surfaces.

Benefits

- Natural finish
- Ready mixed
- Inherent flexibility
- No need for primer or sealer
- No shrinkage
- Vapour permeable
- Higher adhesion
- Quick drying
- Water based
- Environmentally friendly

Areas of use

- Cementitious substrates
- Gypsum boards
- Wood
- Skimming walls and ceilings
- Conventional taping and jointing systems
- Repairing damages, cracks or nail holes
- Making good around door and window architraves
- Filling along the top of skirting boards
