## Handycoat® EZ-Roll™

### Ready-to-use roller applied interior skimcoat

Handycoat EZ-Roll is a ready-to-use roller applied skimcoat for most building surfaces, including sand / cement render and gypsum board. It produces a high quality, even surface for painting. Handycoat EZ-Roll is specially manufactured for both the professional painter and home decorator to repair and level surfaces, both old and new, prior to painting.

Handycoat EZ-Roll is easy to apply using a fine sponge roller after which it is leveled smooth using a spatula knife. When dry the surface can be wet or dry sanded prior to painting.

### Benefits

Handycoat EZ-Roll is made from a selected blend of acrylic polymers and precisely graded fillers. Properties include; easy roller application, high coverage, excellent adhesion to most building surfaces, quick drying. Handycoat EZ-Roll is vapour permeable allowing the surface to breathe, which reduces surface condensation.

### Areas of use

When dry, Handycoat EZ-Roll forms a smooth, sound layer ideal for painting. It is suitable for use by the DIY enthusiast and can make skim coating a job for anyone. It is suitable for use on new masonry substrates as well as on existing painted surfaces.

Apply using sponge roller

Smooth using spatula
