Fund overview

Fund	In a nutshell
VT Esprit Careful Growth	This fund is suited to investors who would like to generate long term capital growth, in excess of cash and inflation, whilst avoiding the large fluctuations sometimes associated with global equity markets. The fund offers exposure to a range of asset classes including fixed income, equities, commodities, currencies, absolute return, property and other alternative assets.
VT Esprit Tactical Balanced	This fund is suited to investors seeking long term capital growth through exposure to a diversified range of asset classes. Returns will be generated from a combination of capital growth and income, but with lower volatility than global equity markets. A significant proportion of the fund may be invested in equities which offer the potential for higher returns, but may result in periods of volatility and a risk of capital losses.
VT Esprit Tactical Growth	This fund is suited to investors who are comfortable with investment risk and seek long term capital growth, but with lower volatility than global equity markets. The fund will predominantly invest in equities and other asset classes which offer the potential for capital growth. The fund will be exposed to the fluctuations of global equity markets and carries the risk of capital losses.
VT Esprit Tactical Alpha Plus	This fund is suited to investors who are prepared to accept a high level of investment risk in order to achieve potentially higher returns than global equity markets. This approach may result in periods of high volatility and the potential for capital losses. The fund will invest predominantly in equities, although other asset classes will be considered where appropriate.
VT Esprit Sustainable Growth	This fund is suited to investors who are comfortable with investment risk and seek long term capital growth, but wish to avoid contentious sectors and industries, as well as gaining exposure to companies that are making a positive difference to society or the environment. The fund only invests in investment vehicles which have passed our strict ESG screen, or those which have a clearly defined sustainable or impact investment objective.

Our investment proposition

Our approach

Our in-house investment team has a strong track record of managing multi-asset portfolios with an active and disciplined approach. With over 30 years of combined investment experience, they are continually monitoring the global economy and financial markets to ensure our clients have exposure to attractive long term investment opportunities, while minimising downside risks when conditions are more challenging.

Our discretionary investment service provides clients with access to a wide range of global asset classes including fixed income, equities, commodities, property and alternatives, such as infrastructure and renewable energy. With the investment landscape rapidly evolving, and becoming ever more complex, we take care of your investments so you don't have to.

Our funds

The VT Esprit range of actively managed multi-asset funds has evolved from a robust and flexible investment approach developed since before the credit crisis in 2008. The ability of the investment managers to react quickly to changing economic, geopolitical and market conditions has resulted in consistent, risk-adjusted returns.

They offer a number of benefits over traditional model portfolios including daily management, access to a wide range of investment vehicles and tax efficiency.

The family of 5 funds is designed to cater for a wide range of investor risk profiles and investment objectives. Each fund targets a specific level of risk, with the aim of maximising real returns subject to these risk parameters.

Supporting local charities

We have been engaged in several different charity projects throughout the years, supporting and giving back to our local community as well as abroad. As a business, it's an important part of who we are and what we stand for.

Since 2018, we are a proud main sponsor of Russel Martin Foundation which uses the power of football to help change people's lives.

New since 2021 is our company charity committee who are focussing on engaging employees in different activities to raise money for three selected local charities. After a year, we select three new charities to support.

All money raised by the committee is matched by Skerritts.
