

For school groups looking for a high quality, epic ski experience we offer the opportunity of staying in world famous downtown Banff. We are delighted to offer our school ski groups the ski experience of a lifetime to Banff, Canada.

World famous in all the ski circles, Banff is a sought-after ski destination with a real old town, out west, feel. Our stunning new program offers the option of skiing the 3 big ski resorts of Banff, Norquay and Lake Louise, all in one epic tour.

Canada has become an excellent value for money ski destination for school groups. The location of Banff, in the western Rockies of Canada with resort slopes to 2730 metres, gives guaranteed and outstanding skiing from November till the end of April each year.

Our new epic ski programme is based on the same format as our previous top selling Utah program, great school group hotel accommodation in the town, dedicated groups bus transfer to ski resorts every day, followed by non-stop evening entertainment program included in the price. 2 great experiences, ski, and apres-ski, all included in one tour!

On the final skiing (Friday) groups then depart for an overnight city break in Calgary. A Pizza evening in the hotel on arrival is included.

RESORT INFORMATION

An iconic ski area of the Rockies, Banff is one big ski area no one will be disappointed with. Not only is it a mega ski area to enjoy, but all the facilities skiers require are on the slopes. It has a big resort atmosphere but due to its massive area lift lines are short especially during the week. With trails covered in light dry snow it offers everything from beginner runs to big mountain terrain.

Lake Louise offers spectacular scenery and a super varied ski area. Only a 40-minute transfer from Banff, from drop off it is skiing all the way with nursery slopes and a dedicated magic carpet immediately off the welcome area. From there groups can progress to gentle slopes to glades, chutes, and wide-open bowls.

Often overlooked by tourists, Norquay is the best kept secret in the Rockies. Progression here is very good, with dedicated lower-level nursery slopes with their own magic carpet, onto intermediate and some hair-raising advanced slopes. Groups also spent one evening here to use the dedicated floodlit sno-tubing area.
