WS Raynar UK Smaller Companies Fund (the "Fund"),

a fund within WS Raynar Portfolio Management Funds
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

I Income (ISIN: GB00BMDJ7066)

Objective and Investment Policy

Objective

To provide capital growth (an increase in the value of the Fund) after all costs and charges have been taken, over at least five years.

Investment Policy

To invest at least 80% in shares of small sized UK companies that have a market capitalisation (total value of the Company) that is equal to or less than the largest constituent of the Deutsche Numis Smaller Companies plus AIM ex Investment Companies Index.

The Fund may also invest up to 20% in shares of medium and large-sized UK companies, money market instruments (which are short term loans that pay interest) and cash.

Investments in collective investment schemes will be limited to 10%.

The Investment Manager seeks to identify companies, which in their opinion have strong financial performance, established management teams, a sound market position and future growth potential. The Investment Manager assesses each companies revenues, earnings, returns, profit margins and other data to determine the potential for future growth, with ongoing monitoring undertaken on these factors.

Other features of the Fund:

The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

The Fund can invest in other funds (including those managed by the Manager, the Investment Manager and its associates).

The Fund can invest across different industry sectors without limitation.

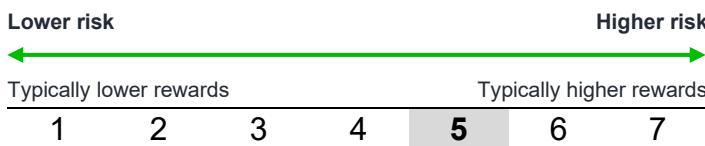

You can buy and sell shares in the Fund on each business day.

The Fund aims to distribute available income every six months. The level of income is not guaranteed and may fluctuate.

Derivatives (whose value is linked to that of another investment, e.g. company shares, currencies) may be used to manage the risk profile of the Fund.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns may have varied. It is a measure of the Fund's volatility. As the Fund has less than 5 years history, this calculation incorporates the volatility of an appropriate benchmark index.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 5 because its volatility has been measured as above average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free. The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- Currency Risk: As the Fund invests in overseas securities, movements

in exchange rates, when not hedged, cause the value of your investments to increase or decrease. Currency hedging, where applied, may not fully eliminate this risk and mismatches can occur.

- Counterparty Risk: The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- Liquidity Risk: The Fund may invest in assets such as corporate bonds or shares in smaller companies, that could become difficult to buy or sell in adverse market conditions. This may delay or restrict the Fund's ability to meet redemption requests and could negatively affect the Fund's value.
- Derivative Risk: The Fund may use derivatives, which can be complex instruments. A derivative may not perform as expected and can create losses greater than its initial cost. A relatively small movement in value of the underlying investment may have a much larger impact, positive or negative, on the value of the Fund than if the Fund held the underlying investment directly.

- Concentration Risk: The Fund intentionally holds a relatively small number of investments and may also invest in securities within a particular industry, sector or geographical focus. This means that the performance of a single investment, industry, sector or region may have a greater impact on the Fund's value. The value of the Fund may therefore be subject to large swings (both up and down) compared to a more diversified portfolio.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.

Charges taken from the Fund over the year

Ongoing Charges	0.89%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

The ongoing charges figure is an estimate based on expenses as at 25 November 2025. This figure may vary from year to year.

The ongoing charges are taken from the income of the Fund. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

A dilution levy (an amount to cover dealing costs incurred by the Fund) may be charged when you buy or sell shares. This separate charge is normally only applied when dealing costs are significant.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Fund's Prospectus, available at www.waystone.com.

Past Performance
